EMBODIMENT

# Why is relevant to **rewrite our mythical stories** when talking about money, desire & our life force energy?

“Myth is the secret opening through which the inexhaustible energies of the cosmos pour into human cultural manifestation”  
Hero of thousand faces, Joseph Campbell

## 4 functions of myths:

### 1. The Mystical Function:

This function relates to the **sense of wonder and mystery in the universe**. It helps individuals connect with a sacred or transcendent dimension of existence, realizing the awe and profundity of the world and their place within it.

### 2. The Cosmological Function:

Myths provide a framework for **understanding how the universe works** and how everything is interconnected. Before the advent of science, this function explained the cosmos, portraying it as an ordered and meaningful whole.

### 3. The Sociological Function:

**Myths support and validate a particular society's values, norms, and ethical guidelines.** They establish **social and political order, define roles, and set moral boundaries** that help maintain cohesion and shared identity within a group.

### 4. The Pedagogical Function:

This function focuses on teaching wisdom and guiding individuals through life's stages. It provides **moral lessons and practical insights**, offering guidance on how to live a human lifetime and navigate the transitions from childhood to maturity.
